

# Activity Idea

## Rainbow Craft

*Recommended for Ages 3 – 5*

### What you need

A large piece of paper, glue, a medium sized container and lots of small household items, i.e. bits of colored paper, buttons, paper clips, rubber bands, drink lids, etc. representing all the colors of the rainbow, red, orange, yellow, green, blue and purple.

### Instructions

Try this fun activity with your child that will help them learn about colors and sorting while doing a fun craft. With your child collect lots of small colorful items from around the house and then place them all into a medium sized container. Ask your child to sort all the colored items into separate piles by color. Help your child, if needed. On a large sheet of paper use crayons or colored markers to draw a large rainbow using red, orange, yellow, green, blue and purple. Next, have your child glue items from each of the piles onto the corresponding arc of the rainbow. Allow about 15-20 minutes for the rainbow craft to dry. Enjoy your child's beautiful rainbow art!
