

FOR IMMEDIATE RELEASE

**LA County Library Announces Award-Winning ABCmouse Early Learning Academy Curriculum Now Available Free to Cardholders**

*The Leading Online Education Resource Helps Kids Ages 2 - 8  
Build a Strong Foundation for Academic Success*

LA County Library is excited to announce the award-winning ABCmouse Early Learning Academy curriculum is now available to LA County Library cardholders.

Having won numerous awards from national education, parent, and media organizations, ABCmouse offers a highly engaging curriculum for preschool, pre-K, kindergarten and beyond.

ABCMouse is an online education resource designed to help early learners (ages 2 – 8+) build a strong foundation for future academic success. The interactive curriculum is 100% educational and features more than 10,000 learning activities across all major subject areas including reading, math, science, social studies, art, and music with more than 2,000 of those learning activities offered in Spanish.

The lessons are tailored to specific ages and intended for kids to learn important educational basics through the use of a computer mouse, with virtual field trips to the zoo and farm, animated music videos, art activities, books, puzzles, and educational games.

The curriculum also features learning assessments and reward systems, to measure your child's progress and encourage learning through the curriculum. Each parent/caregiver account can be shared by up to 3 children in a household, each with their own avatar, profile, and progresstracking on the ABCmouse Step-by-Step Learning Path.

ABCMouse can be accessed inside or outside of the library. Customers can visit one of the reopened LA County Library locations to access ABCmouse from a desktop or laptop using free Wi-Fi, or access it from home with your LA County Library card and PIN.

“LA County Library is committed to supporting early childhood literacy,” says LA County Library Director Skye Patrick. “Getting kids to enjoy reading and learning at a young age is critical to their development. We are pleased to add another resource to encourage early learners, both inside and outside of the library.”
