Kid

## Tin Foil Stained Glass

*Recommended for Ages 10 +*

You will need the following materials:

- Thin cardboard
- Scissors
- String or yarn
- Glue
- Aluminum Foil
- Markers

Instructions:

1. Cut your cardboard any shape and size you would like.
2. Glue your string or yarn in any design onto the cardboard.
3. Wrap aluminum foil around your cardboard and press down gently around the raised string or yarn. This will create the ridges of your faux stained glass.
4. Use markers to color on the aluminum foil in between the ridges.
5. You can hang them as decorations or use as decorative coasters for your table.
