LA COUNTY LIBRARY

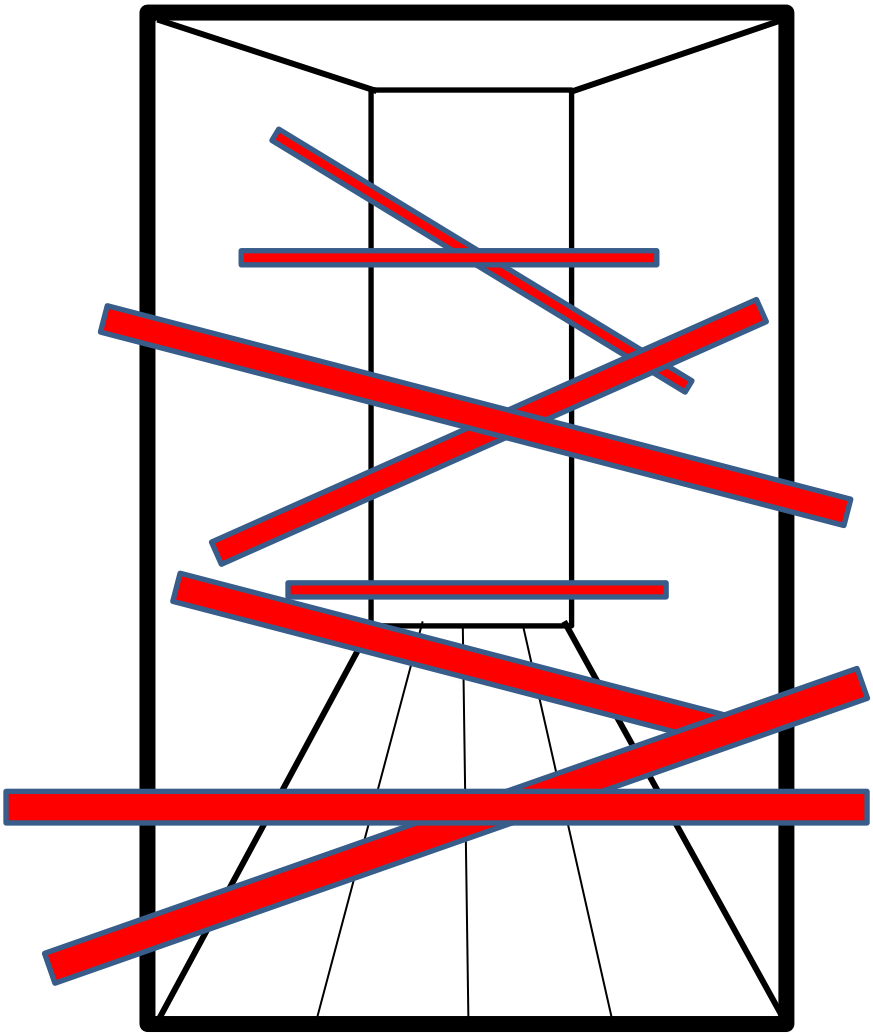
Activity Idea

STRING HALLWAY LASER SPY MAZE

Recommended for Ages 4 – 12

You will need the following materials:

- String or yarn, scissors and tape.

Instructions:


Cut strips of string or yarn to fit across a hallway. Put the strips at different heights, angles, and varying degrees of closeness. The object is to crawl or wind your way through the maze without touching the string! The more strips of string you put up the more difficult it'll be! Good luck!
