LA COUNTY LIBRARY

Activity Idea

DESIGN YOUR OWN SUPERHERO MASK!

Recommended for Ages 4 – 12

Have you ever wanted to be a Superhero? What kind of Superhero would you be? What would your Superhero name be? What would be your special Superhero skill? What would you do to help other people with your Superhero skills? Before you can save the world, we need to design your Superhero mask so let's get started!

You will need the following materials:
Scissors, Crayons or Markers, and a piece of string.

Instructions:

1. Print off the second page of this sheet with the Superhero mask.

2. Use crayons or markers to design and color the Superhero Mask.

3. When you are finished decorating the mask, cut it out and put two holes on the sides of the mask where the dots are located.

4. Measure a piece of string to see how long it needs to be to go around the back of your head but fit snuggly to your face. You may need to ask for help with this part!

5. Cut the string to the appropriate length and tie to each hole located on each side of the mask.

6. Put your Superhero mask on and have fun!
