How to Play Penny Shuffleboard:

Cut out the shuffleboard below and tape it onto the center of a table. Each player gets one penny. Slide the penny across the table and try to get it to land on one of the squares. Whichever square the penny lands on, the player gets the number of points in that square. The first player to 20 points wins! This is a great way to practice eye-hand coordination, have fun and practice your math adding skills!
