LA COUNTY LIBRARY

Activity Idea

Instrument Picture Search

Recommended for Ages 4 – 6

Why do a hidden picture search?
Hidden picture searches are a fun way to help children develop their attention to detail and the ability to separate patterns from backgrounds.

On the following page, find the instruments hidden in the picture.
Below the picture you will find an image of each of the instruments that have been hidden in the picture along with their names. Help the child practice the name of each instrument along with finding the hidden picture for a vocabulary building exercise.
