LA COUNTY LIBRARY

Activity Idea

Crayon Scratch Art

Recommended for Ages 4 and up

Materials

- Paper
- Crayons
- Toothpick (or some other tool with a point)
- Newspaper or Table Cover (optional)

Directions

Make your very own scratch art!

1. You may want to start with covering the surface you are working on with newspaper or table cover.
2. Color a piece of white paper entirely with different colors except black.
3. You can even make patterns if you want. Bright colors will stand out best.
4. Color over the entire picture with a black crayon. Make sure it is completely covered in black.
5. Now take your scratching tool and draw whatever designs you want in your picture and see the colors shine through!
