LA COUNTY LIBRARY

Activity Idea

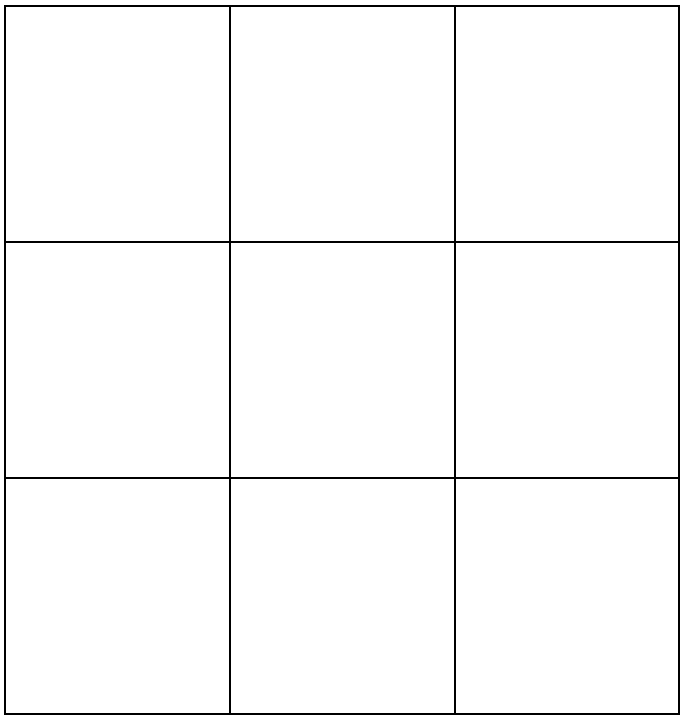
GIANT TIC-TAC-TOE BOARD

Recommended for Ages 5 – 12

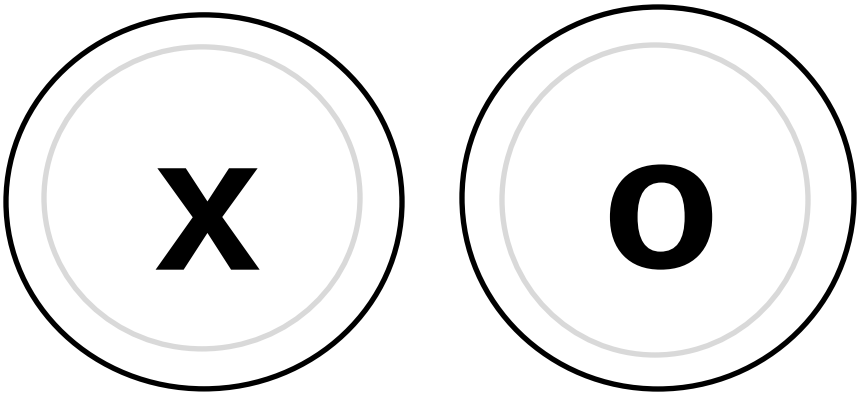
You will need the following materials:
Masking or Painter's Tape, 10 Paper Plates, Markers

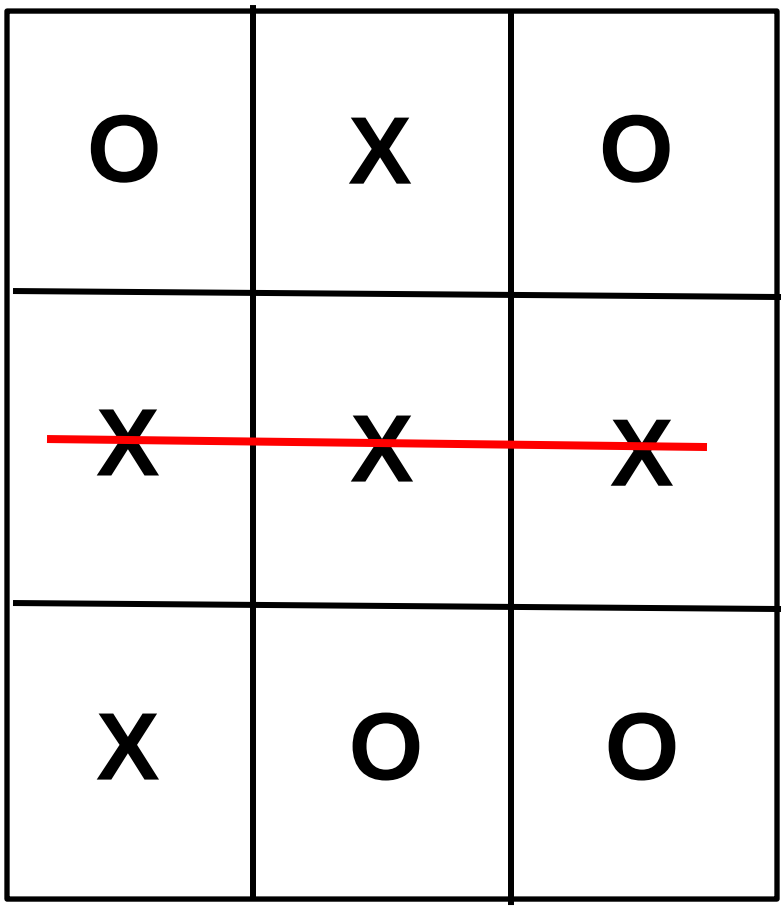
Instructions:

1. Using the masking tape make a giant tic-tac-toe board on your floor. The squares of the board must be bigger than the size of your paper plates. The board should be three squares across and three squares down for a total of nine squares.



2. Turn the paper plates face down and put 5 giant X's and 5 giant O's on the back of each plate.





3. The game is now ready to begin! Players take turns putting down either an "X" or an "O" in an available square. The goal is to get three paper plates of either X's or O's in a row going down, across or diagonally. The first player to get three in a row wins!
