LA COUNTY LIBRARY

Activity Idea

Compare and Contrast

Find the Difference

Recommended for Ages 5 – 8

Why play a game like this?

This type of game helps children to build their skills at comparing and contrasting objects and patterns. This helps build their attention to detail and the ability to separate patterns from backgrounds.

Directions

Have the child look at the two pictures on the next page, ask them if they can find what is different. There are 14 things to find. Ask them to describe the differences as they find them to help build vocabulary. Be careful not to peek at the 3rd page, that has all the answers.
