LA COUNTY LIBRARY

# Activity Idea

## SNOWFLAKE

*Recommended for Ages 5 – 8*

Every snowflake is supposed to be different from every other snowflake which makes each one unique. Do you think this is possible? Why or why not would this be possible?

**You will need the following materials:**

- Popsicle sticks
- Paint or Markers
- Glue
- Embellishments
- String

**Instructions:**

1. If you want to paint or color marker your snowflake, do this first.
2. Once the paint or marker has dried, glue two popsicles into a t-shape and then glue another two popsicles into an X shape on top of the first set.
3. Glue embellishments of your choice on your snowflake and attach a string at the top.
4. Once the glue is dry, you can display your snowflake in a window.
