LA COUNTY LIBRARY

Activity Idea

TEAR PAPER ART

Recommended for Ages 5 – 8

Spring is here and that is when you may see animals in water. What animals would you find in a pond, an ocean, or a river? What would be around your pond, ocean, or river?

You will need the following materials:

- Paper
- Glue

Use paper to make an original masterpiece. Tear off paper to make a pond, ocean, or river and glue it on a larger sheet of paper.

1. Use a blue sheet of paper as your water.
2. Tear around orange or yellow paper to make a duck figure, brown paper to make a tree trunk, and green paper to make grass or leaves.
3. Glue your items in the correct place, e.g. ducks in water, trees on grass.

You can make another scene or item of your choice. It can be a tree, a flower, or even a boat. Need ideas for your creations? Go to Explore.org for live feed on wildlife and choose your environment.
