LA COUNTY LIBRARY

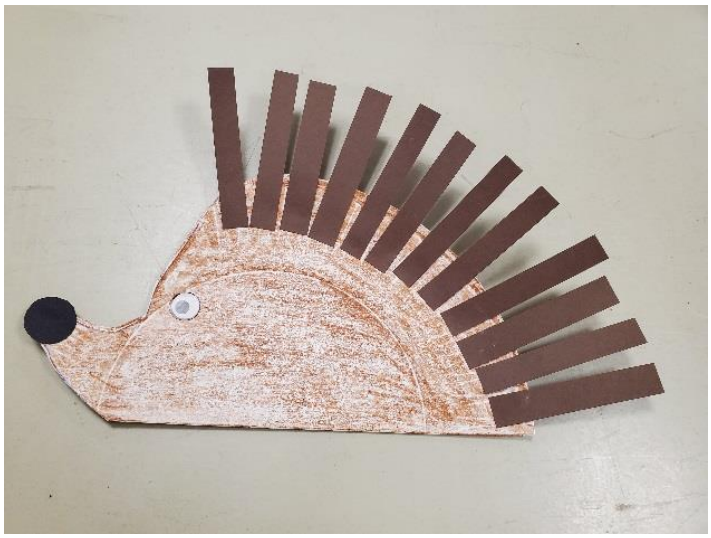
Activity Idea

Hedgehog Paper Craft

Recommended age level: Grades Pre-K – 2

Spring is almost here and that's when hedgehogs come out of hibernation! Hibernation is when some animals, like hedgehogs and bears, spend the winter sleeping and getting lots of rest.

You will need the following materials:



- Paper plate
- Strips of paper
- Paper eye
- Glue
- Scissor
- Round, black circle
- Markers and crayons

Instructions:

- Cut out the paper plate template to make your hedgehog body.
- Glue the sides together.
- Color your hedgehog with a crayon or marker.
- Glue the black circle to the tip of the hedgehog's nose and put the eye on.
- Lastly, glue the strips of paper on the hedgehog's back to make the spines.
